SIC Weekly Activities Report

II.

A.....

B. In view of the obvious difficulties and expense involved in the procurement and use of TV tapes I would like to suggest as an alternative the procurement of the TV film series (16 mm) produced by the Research Institute on Communist Strategy and Propaganda at the University of Southern California. This consists of 38 one-half hour films -- each presenting a well-known specialist in the field to analyze a particular topic. In view of the apparent increase in requirements which is developing we can visualize putting this series to good use as, for example, for the NPIC program. If you approve this suggestion in principle we will check further on details of availability and cost. An expenditure of this nature was not included in SIC's FY 66 budget.
